

When it comes to High Tension Cables, KEI is the key

KEI has been at the forefront of India's wire and cable industry for the last 40 years. Manufacturing LT cables since its inception the company also makes HT cables. KEI uses **Dry Cure, Dry Cool Technology** by employing CCV (Continuous Catenary Vulcanisation Process), finest technology used for producing quality High Tension Cables.

Today KEI offers a range of HT (up to 66kV) and LT cables. **Elastomeric cables, Winding/ Submersible cables, Single Multicore flexible copper wires and Domestic wires**, making it a one-stop-shop for all cabling requirements. KEI is well on its way to a brighter future. Are you ready for it?
